

Software Developer

JANUARY 2019

Salary: £ TBC on experience
Location: Chelmsford, Essex, UK
Role: Software Developer

You must have the right to work in the UK.

About Mintsoft

Mintsoft is a cloud based order and warehouse management platform that's been built from the ground up for 3PLs and multi channel retailers. It's integrated with all the major market places and e-commerce platforms, as well as all the major couriers. Some of the most innovative warehousing and logistics businesses in the UK and further afield trust Mintsoft to help facilitate the despatch of millions of parcels per year.

Role description

We're looking for an exceptional Software Developer to help Mintsoft build and scale our market-leading platform.

Our platform handles millions of transactions per week, which continue to grow as demand for e-commerce fulfillment increases.

jobs@mintsoft.co.uk

You'll be a core part of the technical team that develops and maintains features in the platform. You'll get the opportunity to influence and build brand new features, as well as exploring the latest technologies. There is also the chance to get involved in mobile app development via our Android-based mobile picking app.

Who we're looking for

- You're passionate about technology
- You enjoy solving problems
- You can work in a fast-paced development environment (fortnightly releases)

Experience of

- .Net C#
- ASP.net MVC Razor
- Microsoft Azure
- Entity Framework - LINQ / SQL
- Supporting Languages such as HTML, CSS, XML and Json
- Javascript libraries - JQuery, Bootstrap, Angular, NodeJs
- Soap / Rest based API's
- Version Control - GIT

Why join us?

Working at Mintsoft means continuing the innovation of an indispensable platform, built and supported by an awesome UK-based team.

- Exciting opportunity to join a fast growing company
- Share in the company's success with our bonus scheme
- Flexible hours
- 30 days annual leave plus bank holidays
- Dynamic company with a flat management structure allows you to make your ideas count
- Use the latest technology and hardware
- Learn new skills and develop existing ones
- Healthcare offered includes discounted gym membership and other perks
- Regular team events plus a summer and Christmas party
- Casual dress code
- Never work on your birthday
- Our fridge is stocked full of drinks and snacks

How to apply

Please include your CV or LinkedIn profile, and a brief introduction.
